- Blue Textured Solid - Troy Riverwoods #1056-2
- Black Textured Solid - Troy Riverwoods #1056-4
- Green Textured Solid - Troy Riverwoods #1056-6

2 yards of 44/45" wide batting

### **Quilt Construction:**

1. Trim the panel to 19" x 26 ¾", or slightly outside the white border surrounding the panel. You will be removing the bottom section of the panel containing the quilt labels, and setting them aside for later.
2. Cut a 3 ½" x 42/44" strip from each of the 1/8 yard cuts. Arrange the strips in order as shown on the front picture.
3. The nine strips that fall on the left and right sides of the panel will need to be cut in half. Once completed, place them back in the arrangement.
4. With right sides together, sew the left side nine strips together to form the left side unit. Repeat for the right side unit. Sew the left side unit to the panel, followed by the right side unit. This will be your panel unit.
5. With right sides together, sew the top six strips together to form the top unit. Sew the bottom six strips together to form the bottom unit.
6. Fold the top unit in half and mark the center point with a pin. Fold the panel unit in half and mark the center point with a pin. With right sides together, match the center points and sew outward to join the top unit to the panel unit. Follow this same procedure to join the bottom unit to the panel unit.
7. Trim the completed quilt top to measure 40" x 60".
8. Sandwich the quilt top between batting and the 2 yards of blue textured solid. Quilt as desired. Cut binding strips from the green textured solid, and bind per your favorite method.
